Helpful Installation Note

This guide is provided for information and planning purposes. Product designs and installation requirements may change over time. Before beginning installation, please review the instructions included with your product and confirm that you are using the most current product-specific instructions. If there is any difference, follow the current instructions supplied with the product.

Need help confirming the correct guide? Contact Rubber Mulch Outlet.

Post Installation

STEP: 1

**DO NOT CEMENT POSTS INTO PLACE
UNTIL THE ENTIRE STRUCTURE IS
ASSEMBLED.**

Refer to the General Installation
guide footing information and dig
proper holes for the support posts.

Date: 04/26/2018

Square Deck Installation

STEP: 1

After the posts are in place, using four (4) M10*35 Bolts, eight (8) M10 Washers, and four (4) M10 Lock Nuts, attach each square deck to each pre-attached deck clamp as shown in the image.

Deck clamps are pre-attached to the posts and should not be altered in any way.

Date: 3/19/2018

Right Triangle Deck Installation

STEP: 1

After the posts are in place, using three (3) M10*35 bolts, six (6) M10 washers, and three (3) M10 lock nuts, attach the triangle deck to each pre-attached deck clamp as shown in the image.

Deck clamps are pre-attached to the posts and should not be altered in any way.

Date: 03/20/2018

Triangle Deck Installation

STEP: 1

After the posts are in place, using three (3) M10*35 bolts, six (6) M10 washers, and three (3) M10 lock nuts, attach the triangle deck to each pre-attached deck clamp as shown in the image.

Deck clamps are pre-attached to the posts and should not be altered in any way.

Date: 03/22/2018

Kickplate Install

STEP: 1

Using eight (8) M10*25 bolts, sixteen (16) M10 washers, and eight (8) M10 lock nuts, attach the kickplate to the proper decks.

Right Triangle kickplate requires twelve (12) M10*25 bolts, twenty-four (24) M10 washers and twelve (12) M10 lock nuts.

Date Modified: 06/26/18

3.5-inch Clamp Installation Examples

The following three pages will include examples of how to install some of the most common types of Clamps that are present on our structures that use 3.5-inch outside diameter posts. The structure that you are assembling might not require all the types of clamps listed in these examples.

The Install Guides for specific components that come later in this document might call for a specific type of clamp (a tube clamp for example), those sections will not include detailed instructions for the clamps and should direct you back to this section for more detailed information.

3.5-inch Flat Clamp Install Example

Connect half of the flat clamp to the component using one (1) M8*40 bolt. Then, using the other half of the flat clamp and the hardware provided in the clamp hardware bag, attach the backside of the flat clamp around the post.

Date: 11/01/2018

3.5-inch Clamp Installation Examples

3.5-inch Tube Clamp Install Example

Connect half of the clamp to the component using one (1) M8*30 bolt. Then, using the other half of the tube clamp and the hardware provided in the clamp hardware bag, attach the backside of the tube clamp around the post.

3.5-inch 90-Degree Flat Clamp Install Example

Connect half of the flat clamp to one panel using one (1) M8*40 bolt. Then, using the other half of the flat clamp and the hardware provided in the clamp hardware bag, attach the other half of the tube clamp around the post. Then, attach the next panel to the other side of the clamp using the same process.

Date: 11/01/2018

3.5-inch Clamp Installation Examples

3.5-inch Double Slide Clamp Install Example

Connect half of the double slide clamp to the double slide hood using one (1) M8*30 bolt. Then, using the other half of the clamp and the hardware provided in the clamp hardware bag, attach the backside of the double slide clamp around the post.

Date: 11/01/2018

2-foot Middle Stair Installation

STEP: 1

Using six (6) M10*25 bolts, twelve (12) M10 washers, and six (6) M10 lock nuts, attach the 2-foot connection stair to the assigned decks.

STEP: 2

Then, once the stair is in place, attach the 2-foot connection handrail to the posts using four (4) 3.5-inch tube clamps, and four (4) M8*25 bolts. Then, attach the bottom of the handrails to the decks using one (1) M10*25 bolt, two (2) M10 washers, and one (1) M10 lock nut for each attachment point.

Date: 03/21/2018

Arch Bridge Installation

STEP: 1

Attach the Arch Bridge to the proper decks using three (3) M10*25 bolts, six (6) M10 washers, and three (3) M10 lock nuts for each deck.

STEP: 2

Then, once the bridge is in place, attach the Arch Bridge handrails to the posts using four (4) 3.5-inch tube clamps, and four (4) M8*25 bolts.

Then, attach the bottom of the handrails to the decks using one (1) M10*25 bolt, two (2) M10 washers, and one (1) M10 lock nut for each attachment point.

Date: 06/26/2018

36" Transfer Station (for 3.5" post) Install

STEP: 1

Connect half of the 3.5-inch tube clamp to the handrail using one (1) M8*25 bolt. Set the handrail into place, then attach the second half of the clamp using the hardware provided in the clamp bag. Repeat this process for the other handrail.

STEP: 2

Using three (3) M10*25 bolts, six (6) M10 washers, and three (3) M10 lock nuts, attach the top of the stairs to the square deck.

Date Modified: 3/13/18

36" Transfer Station (for 3.5" post) Install

STEP: 3

Using four (4) M10*25 bolts, eight (8) M10 washers, and four (4) M10 lock nuts, connect the bottom of the handrails to the bottom of the 3-foot transfer stair.

STEP: 4

Using two (2) M10*25 bolts, four (4) M10 washers, two (2) lock nuts, attach the handrail to the square deck.

Date Modified: 3/13/18

36" Transfer Station (for 3.5" post) Install

STEP: 5

Using three (3) M10*25 bolts, six (6) M10 washers, and three (3) M10 lock nuts, attach the ADA transfer deck to the base of the 3-foot ADA transfer stair.

STEP: 6

See general installation guide regarding footing information for the transfer deck handrail & mount. Using two (2) M10*65 bolts, four (4) M10 washers, and two (2) M10 lock nuts, attach the transfer handrail to the ADA transfer deck.

Date Modified: 3/13/18

36" Transfer Station (for 3.5" post) Install

STEP: 7

Using two (2) M10*25 bolts, four (4) M10 washers, and two (2) lock nuts, attach the transfer deck mount to the ADA transfer deck.

STEP: 8

See general installation guide regarding footing information for the ADA transfer step mount. Using two (2) M10 bolts, four (4) M10 washers, and two (2) M10 lock nuts, attach the transfer step to each ADA transfer step mount.

Date Modified: 3/13/18

36" Transfer Station (for 3.5" post) Install

STEP: 9

Using three (3) M10*25 bolts, six (6) M10 washers, and three (3) M10 washers, attach the top of the ADA transfer step to the ADA transfer deck.

Date Modified: 3/13/18

3.5-inch Line Panel Installation

STEP: 1

Connect the bottom of the panel to the deck using two (2) M10*50 bolts, four (4) M10 washers, and two (2) M10 lock nuts. Then attach the top of the panel to the posts using two (2) flat clamps.

Date: 04/19/2018

Snake Climber Installation

STEP: 1

See general installation guide regarding footing information for the snake climber. Using three (3) M10*25 bolts, six (6) M10 washers, and three (3) M10 lock nuts, attach the snake climber to the square deck.

Date: 03/28/2018

Pod Climber Installation

STEP: 1

See general installation guide regarding footing information for the pod climber. Attach the circle end mount to the bottom of the climber using the pre-attached hardware. Each attachment uses three (3) M10*20 bolts, three (3) M10 spring gaskets, and one (3) M10 large gaskets.

STEP: 2

Using three (3) M10*25 bolts, six (6) M10 washers, and three (3) M10 lock nuts, attach the pod climber to the deck.

5-foot Single Wave Slide Installation

STEP: 1

Take one (1) 3.5-inch flat clamp, and loosely attach it around a post using the bolts and nuts provided in the clamp hardware bag. Repeat this process on the other post. Then, use one (1) M8*40 bolt, one (1) M8 washer, and one (1) M8 lock nut to attach each side of the slide hood to each clamp. Leave bolts loose until slide is in place.

STEP: 2

See general installation guide regarding footing information for the slide end mount. Using two (2) M8*20, two (M8) spring washers. And two (2) M8 washers, attach the slide to the slide support post.

Date: 04/10/2018

5-foot Single Wave Slide Installation

STEP: 3

See general installation guide regarding footing information for the middle slide support. Using two (2) M8*20 bolts, two (2) M8 spring washers, and two (2) M8 washers, attach the middle slide support post. Repeat the process for each middle slide mount.

STEP: 4

To attach a single slide to a deck, use two (2) M10*45 bolts, four (4) M10 washers, and two (2) M10 lock nuts. Repeat this process for the other side of the slide. Repeat this process for each single slide.

Date: 04/10/2018

5-foot Single Wave Slide Installation

STEP: 5

Using two (2) M8*45 bolts, two (2) M8 washer, two (2) M12 washers, and one (1) M12 inner hex spiral nut, attach the slide to the slide hood. Repeat this process for the other side of the slide.

Date: 04/10/2018

3.5-inch 2-Clamp Arch Rail Installation

STEP: 1

Attach the Arch Rail to the designated posts by connect half of the tube clamp to the arch rail using one (1) M8*25 bolt. Repeat this process for each post attachment point. Then, attach the rail to the deck using two (2) M10*25 bolts, four (4) M10 washers, and two (2) M10 lock nuts. Finally, attach the second half of the clamp around the post.

Date: 04/04/2018

6-foot Vertical Ladder Installation

STEP: 1

See general installation guide regarding footing information for the 6-foot Vertical Ladder. Attach the ladder to the deck using two (2) M10*25 bolts, two (2) M10 spring washers, and two (2) M10 washers.

Date: 03/20/2018

Spiral Slide Kickplate Installation

STEP: 1

Attach the spiral slide kick plate to the proper square deck using four (4) M10*25 bolts, eight (8) M10 washers, four (4) M10 lock nuts.

STEP: 2

Attach the spiral slide deck to the top of the spiral slide kick plate using four (4) M10*25 bolts, eight (8) M10 washers, and four (4) M10 lock nuts.

Date: 01/05/2020

Spiral Slide Installation

STEP: 3

Attach the Spiral Slide Deck Support Post to the Spiral Slide Deck using two (2) M10*25 Bolts, four (4) M10 Washers, and two (2) M10 Lock Nuts.

STEP: 4

Connect the Spiral Slide Mount to the bottom of the Spiral Slide using four (4) M10*20 Bolts, four (4) M10 Spring Gaskets, and four (4) M10 Washers. Refer to the General Installation Guide for information on slide footings.

Date: 01/05/2020

Spiral Slide Installation

STEP: 5

See general installation guide regarding footing information for slides and support posts. Connect the Spiral Slide to the Spiral Slide Deck using three (3) M10*20 Bolts, three (3) M10 Spring Gaskets, and three (3) M10 Washers.

STEP: 6

Attach the Spiral Slide Handrail to the Spiral Slide Deck using five (5) M8*60 Bolts, five (5) M8 Washers, five (5) M12 Washers, and five (5) M12 Inner Hex Nuts. Connect spiral slide panels to slide using four (4) M10*50 bolts, eight (8) M10 washers and four (4) M10 lock nuts for each panel. Connect the handrails to the posts using two (2) tube clamps. Repeat this process for the other handrail.

Date: 01/05/2020

Tube Slide Installation

STEP: 1

Attach the slide entry hole panel to the deck using two (2) M10*50 bolts, four (4) M10 washers, and two (2) M10 lock nuts. Then attach the top of the panel to the posts using two (2) flat clamps.

STEP: 2

See general installation guide regarding footing information for the tube slide mount. Attach the slide end mount to the bottom of the slide using four (4) M10*20 bolts, four (4) M10 spring washers, and four (4) M10 washers.

Date: 04/18/2018

Tube Slide/Bridge

Attention: Any hardware on pre-attached tube slide or tube bridge supports (not including set screws) are to be disposed. Use supplied bolts and appropriate lock nuts in hardware box to avoid any safety hazards or safety violations.

Date Modified: 02/04/19

Tube Slide Installation

STEP: 3

Then, attach the tube slide support to the slide support brackets by inserting the support into the designated slot under the slide, and tighten the set screws using the provided Allen wrench. Repeat this process for the other slide support post.

STEP: 4

Finally, connect the tube slide together using ten (10) M8*30 bolts, ten (10) M8 washers, and ten (10) M8 lock nuts.

Date: 04/18/2018

3.5-inch 4-Clamp Arch Rail Installation

STEP: 1

Attach the Arch Rail to the designated posts by connect half of the tube clamp to the arch rail using one (1) M8*25 bolt. Repeat this process for each attachment point.

Set the arch rail into place, then attach the second half of the clamp around the post. The gap between the deck and the bottom of the rail should be no more than 3 inches.

Date: 03/20/2018

Pixel Climber Installation

STEP: 1

First, detach the pre-attached bracket on the end of the climber that has four (4) Bolts attached, and attach it to the designated deck.

STEP: 2

Then, attach the provided support mounts to the other side of the Pixel Climber using the pre-attached bolt.

See general installation guide regarding footing information for the figure climber.

Date: 04/09/2018

Pixel Climber Installation

STEP: 3

Finally, attach the climber to the mount that you attached to the deck with the pre-attached hardware.

Date: 04/09/2018

Tube Slide Installation

STEP: 1

Attach the slide entry hole panel to the deck using two (2) M10*50 bolts, four (4) M10 washers, and two (2) M10 lock nuts. Then attach the top of the panel to the posts using two (2) flat clamps.

STEP: 2

See general installation guide regarding footing information for the tube slide mount. Attach the slide end mount to the bottom of the slide using four (4) M10*20 bolts, four (4) M10 spring washers, and four (4) M10 washers.

Date: 04/18/2018

Tube Slide Installation

STEP: 3

Finally, connect the tube slide together using ten (10) M8*30 bolts, ten (10) M8 washers, and ten (10) M8 lock nuts for each connection point.

STEP: 4

Attach the tube slide supports to the slide support brackets by inserting the support into the designated slot under the slide, and tighten the set screws using the provided Allen wrench. Repeat this process for the other slide support post.

Date: 04/18/2018

6-Foot Left Turn Slide

Step 1

Take one (1) 3.5-inch flat clamp, and loosely attach it around a post using the bolts and nuts provided in the clamp hardware bag. Repeat this process on the other post. Then, use one (1) M8*40 bolt, one (1) M8 washer, and one (1) M8 lock nut to attach each side of the slide hood to each clamp. Leave bolts loose until slide is in place.

Step 2

Using the hardware pre-attached to the slide, connect the two sections of the slide together.

Step 3

See general installation guide footing information regarding installation of the middle supports, and slide end mount. Insert the middle support into the designated slot under the slide, and tighten the set screws using the provided allen wrench. Repeat this process for the other slide support post.

Step 4

Using two (2) M8*20, two (M8) spring gaskets, and two (2) M8 washers, attach the slide to the slide end mount.

Step 5

Using one (1) M10*45 bolt, two (2) M10 washers, and two (2) M10 lock nuts, attach one side of the slide to the deck. Repeat the process for the other side of the slide.

Step 6

Using one (1) M8*45 bolt, one (1) M8 washer, one (1) M12 washer, and one (1) M12 Inner hex spiral nut, attach the slide to one side of the slide hood. Repeat this process for the other side of the slide. Make sure all bolts are properly tightened.

Line Roof Installation

STEP: 1

Set the line roof on top of the posts. Take four (4) self-tapping screws and drill them through the notch at each corner of the roof, into the support posts.

Date: 03/19/2018

3.5-inch Store Panel Installation

STEP: 1

Attach the Store Panel to the designated posts using four (4) 3.5-inch flat clamps, and four (4) M8*25 bolts.

Date: 03/23/2018

Car Panel Installation

STEP: 1

Attach the Car Panel to the designated posts using four (4) 3.5-inch tube clamps, and four (4) M8*25 bolts.

Date: 03/23/2018

Gear Panel Installation

STEP: 1

Attach the Gear Panel to the designated posts using two (2) flat clamps for the top of the panel, and two (2) tube clamps for the bottom of the panel.

Date: 10/24/2018

3.5inch Bench Panel Installation

STEP: 1

Attach the Bench Panel to the designated posts using four (4) 3.5-inch flat clamps, and four (4) M8*25 bolts.

Date: 03/21/2018

Bongos Installation

Detach half of the tube clamp connected to the Bongos, and re-attach the clamp around the support post, as shown in the image. Recommended install height is 20 to 36 inches above surfacing depending on age range.

We recommend using Thread-locking fluid on bolts connecting Bongos to clamp to prevent hardware from loosening over time.

(Thread-locker not supplied)

Date: 03/20/2018

Rain Wheel Installation

Detach half of the tube clamp connected to the Rain Wheel, and re-attach the clamp around the support post, as shown in the picture. Recommended install height is 20 to 36 inches above surfacing depending on age range.

We recommend using Thread-locking fluid on bolts connecting Rain wheel to clamp to prevent hardware from loosening over time.

(Thread-locker not supplied)

Date: 03/29/2018

Ships Wheel Installation

Detach half of the tube clamp connected to the Ships Wheel, and re-attach the clamp around the support post, as shown in the picture. Recommended install height is 20 to 36 inches above surfacing depending on age range.

We recommend using Thread-locking fluid on bolts connecting Ship's wheel to clamp to prevent hardware from loosening over time.

(Thread-locker not supplied)

Date: 03/20/2018

Single Drum Installation

Detach half of the tube clamps connected to the Single Drum, and re-attach the clamps around the support post, as shown in the image. Recommended install height is 20 to 36 inches above surfacing depending on age range.

We recommend using Thread-locking fluid on bolts connecting Single Drum to clamp to prevent hardware from loosening over time.

(Thread-locker not supplied)

Date: 04/18/2018

270 Degree Trapezoid Ladder Installation

STEP: 1

Attach the Overhead Trapezoid Ladder to the designated posts by connect half of the tube clamp to the ladder using one (1) M8*30 bolt.

Repeat this process for each attachment point. Set the ladder into place, then attach the second half of the clamp around the post.

STEP: 2

See general installation guide regarding footing information for the climber support post. Using one (1) M10*50 bolt, and one (1) M10 lock nut, attach the climber support to the overhead climber.

Date: 04/15/2018

Straight Rung Overhead Ladder Installation

STEP: 1

Attach the Overhead Straight Ladder to the designated posts by connect half of the tube clamp to the ladder using one (1) M8*30 bolt. Repeat this process for each attachment point. Set the ladder into place, then attach the second half of the clamp around the post.

Date: 03/21/2018

Overhead Access Ladder Installation

STEP: 1

Attach the Overhead Access Ladder to the designated posts by connect half of the tube clamp to the ladder using one (1) M8*30 bolt. Repeat this process for each attachment point. Set the ladder into place, then attach the second half of the clamp around the post.

Date: 04/18/2018

Overhead Climber Clamp Support

Once clamps are installed on structure, secure clamp to post by using hardware provided. Use one bolt cap with cover, one washer, one screw. Drill into the backside of the clamp.

Date Modified:01/08/2019
