Playground Timbers

KEEPS PLAYGROUNDS SAFE

● ● ● Available in Black, Brown and Red.

GroundSmart Timbers are the best border system option for all of your landscaping and playground needs. These 92" long timbers come in heights of 4", 6" or 8". With the flexibility of rubber, it can form to virtually any edge desired. The top of the timber is rounded to provide extra safety when used around a playground.

Designed drainage ports so water does not pool in flower beds or playgrounds. Easy to install, low maintenance and made from 100% recycled rubber, GroundSmart Timbers are the best choice for your landscaping needs.

Installation Instructions

1. Determine how many linear feet are needed for your landscaping project (each timber is 92" long.)
2. Lay the borders on the ground where you plan on installing them - our borders are flexible and can be curved around corners.
3. If cuts are needed, use a circular saw.
4. Determine the location for each stake and drill a hole using a standard wood drill bit (3 per timber). Secure to the ground by hammering into the timber and recess the spike
